- The Java Tutorials. [Lesson: Generics](#).
- И. Блинов. Глава 3, стр. 68-73.

## Code Exercise

### Version 2

The task formulation of the version 1 is the same as the version 0 except for item 7.

7. Get the **Service** instance from the last purchase with the operator  
**Service** service = pu4.getPurchase().getItem();  
and output it.

Ограничения и замечания к задаче

– Запрещены [raw types](#) and [downcasting](#).
